TO WHOM IT MIGHT CONCERN

It is to certify, that Izodom 2000 Polska Sp. z o.o. - a Polish construction materials manufacturer - has been selected to participate in the EU Gateway Programme, Construction and Building Technologies Business Mission, scheduled to take place in Tokyo, Japan from 2 to 6 December 2013.

Izodom 2000 Polska Sp. z o.o. will be one of 40 companies from across the European Union selected for this mission.

The Company has met the following criteria:

- Exist for at least 5 years - Izodom was established in 1991
- Fully-owned by European Union capital
- Being located and having its main activities in the European Union
- Active in one of the economic sectors covered by the EU Gateway Programme,
- Have proven track records of international business cooperation,
- Have a solid business strategy for entering the Japanese market,
- Have a sufficient turnover and number of people employed to guarantee a market entry to Japan.

The EU Gateway Programme Construction and Building Technology mission is an initiative of European Union, aiming to identify most innovative construction technologies and materials across the European Union, with a potential in entry to Japanese and Korean markets. The European Commission via the EU Gateway Programme manages and arranges promotion of the EU companies.
